HOW TO OBTAIN A PERMIT FOR ON-SITE SEWAGE FACILITY

1. SINGLE FAMILY RESIDENT FEE: \$450.00

Minimum lot size for single-family residence: 1 acre.

2. OTHER TYPE ON-SITE SEWAGE FACILITY: FEE: \$500.00

Systems other than single family residential shall be designed and submit planning materials prepared and sealed by a registered sanitarian or professional engineer.

3. OBTAIN AN APPLICATION FORM FROM LEE COUNTY SANITATION

- Please note for New Constructions and Modifications, prior to submitting a Lee County OSSF Sanitation application, you must check with the Lee County Development Services Director to see if a Development Permit has been issued for the proposed address.
- No permits will be forwarded for review to the Lee County Design Representative until a Development Permit has been issued.

4. HAVE APPROPRIATE INDIVIDUAL PREPARE PLANNING MATERIALS.

Professional design is required for proprietary and non-standard systems.

5. SUBMIT COMPLETED APPLICATION (IN PROPERTY OWNERS NAME)

6. SUBMIT FEES AND COPIES OF THE FOLLOWING:

- a) Planning materials
- b) Site and soil evaluation
- c) Accurate directions to the site.

7. PLANS AND APPLICATION WILL BE REVIEWED BY LEE COUNTY

SANITATION: non-standard systems plans may be reviewed by TNRCC in Austin.

8. UPON APPROVAL: An authorization to construct will be issued and construction may begin.

9. INSPECTION: An inspection of the installation is required BEFORE covering the system. An advanced notice of 3 working days for inspection is REQUIRED.

After a successful inspection, a notice of approval will be issued.

ALL FEES SHAL BE PAID BY PERSONAL CHECK, CASHIER'S CHECK, OR MONEY ORDER. ABSOLUTLY NO CASH WILL BE ACCEPTED

LEE COUNTY SANITATION

ON-SITE WASTEWATER SYSTEMS CHECKLIST

The following information must be included with the design package for review by Lee County Sanitation. Failure to include or address ALL of the following items WILL result in approval delays.

- 1. SITE EVALUATION:** At least two (2) soil borings/backhoe pits shall be taken in opposite ends of the area to be used for the soil absorption system, and shall be excavated to a depth of feet BELOW the proposed trench, or to a restrictive horizon, whichever is less. A copy of the test results and the drawing must be enclosed.
 - a) Soil texture analysis. List the texture type
 - b) Soil structure analysis. List structure type
 - c) Depth of test. (Soils without at least 24" of suitable soil beneath the proposed drain field shall be considered unsuitable).
 - d) Restrictive horizon evaluation
 - e) Topography
 - f) Flood hazard
 - g) Vegetation
 - h) Easements and bodies of water (lakes, ponds, watercourses, ect.) must be identified
 - i) Location of all buildings (existing or proposed)
 - j) All separation distances identified
 - k) All water wells on this site and neighboring properties
- 2. PLANNING MATERIALS:** A copy of the construction drawing must be enclosed and shall include the following information:
 - a) A detailed legible site plan with boundary description (Aerobic systems required scale drawings legal description of the lot an affidavit to the public and maintenance agreement to be attached)
 - b) The location of all buildings (existing or proposed) on the site plan
 - c) The size and location of the wastewater treatment units and disposal area (include width & depth). A cross section of the excavation must be included
 - d) All water wells on the site and neighboring properties must be identified and located on the site plan
 - e) Easements and bodies of water (lakes, ponds, watercourses) must also be identified
 - f) ALL separation distances must be shown.

OSSF SOIL EVALUATION

DATE PERFORMED:

PROPOSED EXCAVATION DEPTH:

NAME OF SITE EVALUATOR:

REG.#

Requirements:

At least two soil excavations must be performed on the site, at opposite ends of the proposed disposal area. Locations of soil boring or dug pits must be shown on the site drawing. For subsurface disposal, soil evaluations must be performed to a depth of at least two feet below the proposed excavation depth. For surface disposal, the surface horizon must be evaluated. Describe each soil horizon and identify any restrictive features on the form. Indicate depths where features appear.
